Agricultural Services Board Administration Report

Rodent Control Products

We will have three products on hand for the 2023 season, we will have Rozol, Ground Force, and Ramik. These are all multi-feed baits as that is our only option now for Richardson Ground Squirrel control.

Administration

After the Christmas break, 5 Board members and myself attended the Provincial Agricultural Service Board Conference hosted by the Peace Region in Grande Prairie January 17-20th. Currently reviewing health and safety information such as Safety Data Sheets, job descriptions, safe work practices, training documents, herbicide application forms, and other information required for operations throughout the year. I am also reviewing ASB Policies, as well as Procedures and Bylaws to bring forward in the next two meetings. We have started our year end reports for Coyote control, ASB provincial report, and environmental funding stream are also started. We have started planning a Tri-County (Starland, Special Areas 2 & Stettler County) Ladies Livestock Clinic to be hosted in Byemoor. We are still awaiting more surveys to come in on what the public would like to see for a seminar or workshop. I have two schools that have signed up for Classroom Agriculture Program, this is where we go into the class and show just how important agriculture is in the community, and for the world.

County of Stettler Agricultural Services Board Bursary

The County of Stettler Agricultural Services Board will be accepting applications for the Agricultural Services Board Bursary up until the deadline of April 14th, 2023. Advertising up until this time will be performed through multiple channels including social media, the County Connections newsletter, and the Stettler Independent.
