

County of Stettler - Gravel Road Dust Reduction Program

Applications are now being accepted for the County of Stettler gravel road dust reduction program and will be received up to April 30, 2026 at 4:30pm by calling 403-742-4441 during regular office hours. Payment is due at time of application.

Products available in 2026 are:

PRODUCT	Cost per Square Metre (Plus GST)
Magnesium Hydroxide (MG-30)	\$1.035
Asphalt Emulsion (DL-10) – New application	\$4.464
Asphalt Emulsion (DL-10) – Medium application	\$2.312
Asphalt Emulsion (DL-10) – Heavy application	\$3.408
Medium Curing Asphalt Oil (MC-250)	\$6.737

- The County provides no warranty regarding the performance or longevity of any product.
- The County reserves the right to rework treated sections as necessary; residual coating may result in partial dust suppression.
- Enrollment in MG-30 as a dust suppressant requires two (2) applications per year.
- Annual reapplication of DL-10 across the full length of the treated area is required. Failure to comply will result in the discontinuation of DL-10 at that location; however, MG-30 may still be utilized for dust suppression.
- MC-250 applications will be maintained at existing sites only. Sites that are untreated or have significantly deteriorated may be discontinued.

County of Stettler Public Works Policy PW 2.2 – Gravel Road Dust Reduction

3 - Landowners are not permitted to apply any form of dust reduction products to County roads. Participation in the provided program is required if dust reduction is desired.

Requests received after the April 30, 2026 may not be accommodated or may be subject to later in the season product application and additional cost, depending upon program participation and supply factors.
